To Whom It May Concern:

Re: Errol Lee

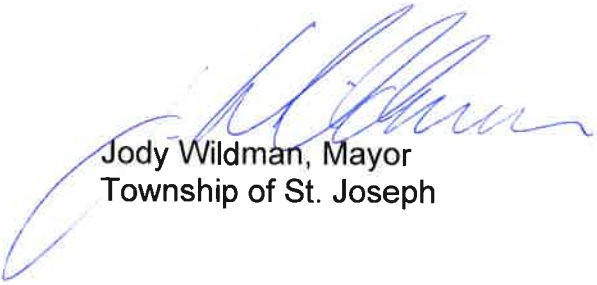

Errol Lee has been visiting our community for many years and our students always look forward his concert events. His message of character and love, both for oneself and others, is important, infectious, and unifying.

The message of Errol's performances contributes to our kids' desire to be good friends to each other and provides them with teachings that help them to respect themselves and others. Their excitement after Errol has been to the school is noticeable as they share his message at home, still buzzing with the energy he had shared.

I remember the excitement of my own children after school as they have told us about Errol's visits to St. Joseph Island Central Public School over the years. I recently asked them what they remembered about Errol and (even as cynical teenagers) they smiled and commented on the importance and value of his message, which has stayed with them.

Errol Lee has been a valued friend of our school and community. I hope he has the opportunity to work with teachers and students both here and across Ontario for many years to come.

Sincerely,

Jody Wildman, Mayor
Township of St. Joseph
